

On-line Registration

- The process to become an 8.33 Official Installer is only available through the Internet. Access to the online form at <http://www.833solar.com/gb/oi> and enter your details.
- All fields are required. Details will be checked and forms with incomplete or fabricated information will not be accepted.
- The MCS field is only required for installers trading in the UK.
- Once you have completed the form, click send. For security reasons an email with a password to complete the registration will be sent to the supplied address.
- With this password you'll gain access to a private area where you can attach a valid purchase invoice (*) from your official distributor. If you have any problems, you can also send the file (.pdf, .jpg, or .png) to officialinstaller@833solar.com.
- Once we receive it, we will check the purchase invoice is valid and send your 8.33 Solar Official Installer certificate.

For further help please send an email to officialinstaller@833solar.com. Our technical support team is there to help.

(*) Purchase Invoices are valid if they include:

A purchase date of March 2015 or later + Full Distributor and Installer Details + Reference to the 8.33 Solar product + Quantity purchased.

How to get a warranty extension for your installations.

- 1) Only active 8.33 Official Installers can get warranty extensions.
- 2) Only real serial numbers from 8.33 panels bought through our official distributors can be registered.
- 3) You can find the serial number of a panel:
 - On the front of the module at the top center.
 - On the back of the module at the top center on the label.

The codes must be entered in the online form. If you have problems with entering them, please send a file with the serial numbers (preferred formats: Excel or Word, but if you can't manage that an image or pdf will do) by email to officialinstaller@833solar.com. The files sent must be fully readable and show to the real serial numbers used in the installation. The extended warranty is not valid until you have received an e-mail from 8.33 Solar with a document certifying the extension, duly stamped by 8.33 Solar.

Marketing Tools:

Marketing tools is an exclusive, private section of the website reserved just for you. In this section you can find all the graphic materials that we have designed for you.

Stickers.

Signage.

Flags.

Flyers.

Plus adverts especially for use on Facebook, Twitter and LinkedIn.
