833-R52 Experimental test report for determination of surface coating

Report No.: ETE-19091803

Sample Name: 833-R52 Rail

Standard: >15 μ m

Test method: Electronic film thickness meter test

Test Date: 2023-03-15

Tester: Mark

Test Method: Test film thickness values at 6 points for each rail from head to tail by sampling 30 PCS in 1000 PCS of 4200mm

Test Result: The test samples >15 μ m, qualification Evaluation

Test Photos: Test procedure
